Team RMIC Ministries - TRM, is involved in the use of a wide range of non-cash items. All of these non-cash items are used by individuals and businesses everyday. As a result of this common use and availability, it is only logical to assume that some of these items become dated and of less use to their present owners than they would like. There are generally three ways in which such items are disposed.

- The dumpster
- The junkyard

The fourth option is of course to repair the item and bring it back into a more satisfying state of usefulness. The present owners may do this for their own use or they could choose to do that for us before donating the item. TRM is able to use many of the following items that might need some minor repair. Larger items such as large office machines, farm machinery, construction machinery and all types of trucks and vehicles would need to be considered on a case by case basis. TRM has access to repair facilities in Mexico and in the border-states region that are much less costly than in most other parts of the country. This gives us the opportunity to weigh the cost of getting the item to where it can be brought into serviceable condition. So location within the USA and or the possibility of the donor assisting us in transporting, or driving the item to a designated location would need to be considered.

Our 501c3 charitable organization will issue the donor of any of the listed items a receipt based on the market value of the item at the time it is received. All applicable IRS rules will apply. Please consider the possibility of giving your serviceable but unneeded non-cash items new life and importance in the Kingdom, by passing them to Reformation Ministries International Corp.

Usable Non-Cash Items Tools and Shop Equipment:

- All hand tools
- All shop equipment
- All battery operated hand tools which use currently available batteries.
- Farm tools and Equipment: (a) small to medium sized farm equipment, preferably diesel (b) Specialized Farm shop equipment (c) Large hand tools of the type used on heavy equipment
- Auto mechanic hand tools
- Auto mechanic hand tool storage cases and boxes
- All types of welding equipment-gas-electric-hand or wire fed
- Auto and heavy machinery shop equipment, portable or fixed

Automobiles and Trucks: (a) All types of serviceable autos (b) All types of serviceable trucks (c) All types of serviceable work and specialty trailers Aircraft and Aviation:

- All types of serviceable single and twin engine aircraft
- All types of serviceable hand held communications and navigational equip.
- All types of serviceable dash mounted electronic equipment. Note: Are aircraft needs are somewhat specialized, but we can often trade one serviceable type for another, that is more useful to our training and ministry needs.

Donation Procedures:

Please email us at info@reformationinaction.com with a notification of your possible non-cash item. We will respond quickly and assist in anyway that we can to facilitate the transfer. Please receive our thanks and appreciation for your kind considerations toward this ministry.
